Last Sunday, I was gardening with my father. It was half past six in the morning. The air was really fresh. My dad called me from the yard. He said something about 'banana'. I walked to where he stood looking at one of my banana trees. I saw some of them are already yellow. What a great view!

Next, we were busy to harvest the bananas. It was my first time to do this. We just moved to this new house for about six months. Here, we have some yard besides the house with banana and guava trees.

After that I watered the vertical garden and pulled off the wild grass. I also collected the old leaves and realized that the yard looked nicer and cleaner after that.

Finally, I picked 2 ripe guavas. Hmm, they smelt nice. I took a shower and had breakfast with my parents right after that. It was a fine Sunday morning. I felt a stronger bond by doing the gardening together with my father.

24. What is the main idea of the first paragraph?
- A. The family had a breakfast together.
 - B. The writer watered the plants and cleared the yard.

 - C. The writer had watered the banana trees.
 - D. He collected old leaves and pulled off the wild grass.

This text is for questions 27 to 29.

My sister really wanted to go to the beach after having her final semester test. So as soon as the test finished, I took her to Maron Beach in Semarang.

Early in the morning, we prepared everything. Since we wanted to have a picnic, we brought some food and drink and we brought swimming suits and beach ball, too. When everything was ready, we went to the beach by motorcycle. It took about 25 minutes to get there.

Arriving at the beach, we bought tickets and went into the beach through the entrance gate. There were a lot of people at the beach. We changed our clothes and joined some people playing in the water. We screamed whenever the wave hit our body. It was really exciting. After that, we had a picnic lunch while enjoying the wide sea in front of us. In the middle of the day, it was getting hot. We decided to take a rest under a coconut tree, enjoying the beach scenery.

In the afternoon, we played beach volleyball with other visitors. When it was getting dark, we decided to go home.

It was really a wonderful day. We spent all day long at the beach. We felt tired but happy.

27. What is the main idea of the third paragraph?
- A. The writer with her sister and her cousins enjoyed the activities at the beach.
 - B. The writer prepared everything she needed to go to the beach.

Blueberries are flowering plants of the genus *Vaccinium* with dark-blue, purple or blackberries. Species in the section *Cyanococcus* are the most common fruits sold as 'blueberries' and are mainly native to North America. They are usually erect but sometimes flat shrubs varying in size from 10 cm to 4 m tall. The leaves can be either deciduous or evergreen. They are oval shaped like a two-dimensional section through an egg, with 1-8 cm long and 0,5 - 3,5 cm broad. The flowers are bell-shaped, white, pale pink or red, sometimes tinged greenish.

The fruit is a false berry 5-16 mm diameter with a sparkled crown at the end; they are pale greenish at first, then reddish-purple, and finally blue on ripening. They have a sweet taste when mature, with variable acidity. Blueberry bushes typically bear fruit from May through June. Fruiting times are affected by local conditions such as altitude and latitude.

We can get many benefits if we consume blueberries. They contain antioxidants and are useful for human nervous system and brain health. People may have them in juice. They are considered as a low GI fruit, means they have a favourable impact on blood sugar regulation. Diabetic people are safe to consume it. We can freeze them without losing their delicate anthocyanin antioxidants until six months.

Ladybirds or Ladybugs are insects from a family of coccinellidae. "Ladybirds" derives from Britain and the insects are known as the lady beetle. The word *Coccinellid* is a Latin word means scarlet.

Most ladybugs have oval – dome shaped bodies with six shorts legs. They can have spots, stripes or no marking at all, according to their species. Seven spotted coccinellids are red or orange with three spots on each side and one in the middle; they have a black head with white patches on each side.

Ladybirds are known as predators of aphids and scale insects. They are purely carnivorous but some species in the sub family Epilachninal are herbivores, and can be very destructive agricultural pests. They can damage the harvests.

Ladybugs are bird's prey besides frogs, wasps, spiders and dragonflies. Their bright colour discourage some potential predators to attack them. This phenomenon is called aposematism. The predators learn by experience that 'good looking prey', associates to bad taste. These insects produces an allcalloid toxin when the predators attack them.
